IRSC26, Sept 8, 2026

Introduction

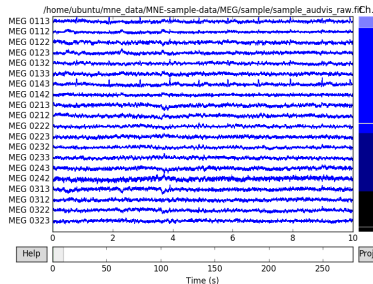

- Accrue technical debt
- Modify to latest standards

Standardization

- Standardization

Eelbrain-BIDS

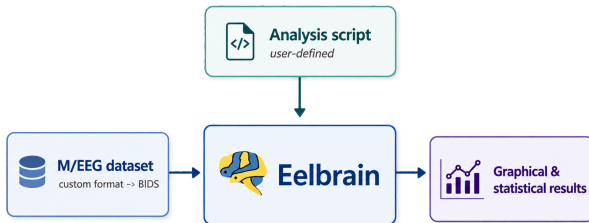

- Magnetoencephalography (MEG) and electroencephalography (EEG) are neuroimaging techniques that measure the magnetic fields and electrical potentials generated by brain activity

MEG device and the recorded multi-channel data

Eelbrain-BIDS

- Eelbrain is an open-source Python library for M/EEG data analysis
- BIDS (Brain Imaging Data Structure) is a community standard for organizing and sharing brain data, including M/EEG data
- The Eelbrain-BIDS project upgraded the input dataset format of Eelbrain from a custom format to BIDS
